I am a rising senior at Salisbury University. I am extremely passionate about all things computer science; I hope to be able to break into the field of software development, web development, cybersecurity or something similar, as well as gain more experience and to build meaningful relationships with others around me in my work environment.

## SKILLS

- Python
- C++
- Java
- MySQL Database, MySQL workbench
- Html 5, CSS, Bootstrap Framework, Apache Web Server
- Linux, bash, Ubuntu Server, Ftp, SSH
- Windows Server, PowerShell, Task Scheduler
- Game Maker Studio 2, Game Maker Language
- Microsoft Endpoint Configuration manager console
- System Administration, Active Directory
- Pickup skills quickly and self-directed
- Sharp Communication Skills

## EXPERIENCE

MAY 2020-AUGUST 2020, NOVEMBER 2020-JANUARY 2021

### PROGRAMMER, PANEL TECHNICIAN, PENDANT AUTOMATION

Testing of PLC microcontrollers, Laptop repairs, Python scripting, MySQL scripting and some Database management using the MySQL API and Python, Linux skills, Windows (PowerShell, Task scheduler, Server) (Summer and winter internship)

JUNE 2021-AUGUST 2021

### TECHNICAL SUPPORT ANALYST, JOHNS HOPKINS UNIVERSITY

Use of active directory, Microsoft endpoint configuration manager console for system administration as well as using problem solving skills to troubleshoot and solve problems to help users and manage our fleet of devices. Also included setup and tear down of equipment and hybrid technology. (Summer internship)

### PERSONAL PROJECTS

Game maker Studio 2 Projects, Cybersecurity (Kali Linux), Raspberry Pi and Linux, Html, CSS, JavaScript, and Bootstrap framework, tutoring a student in Introductory Java. Setup and Maintenance of my Linux server, including firewall, port forwarding, file backup ,sftp ,and hosting my personal website through Apache.

## EDUCATION

### B.A., COMM MEDIA PRODUCTION, SALISBURY UNIVERSITY

I am entering my senior year in acquiring my bachelor's degree, in Communications Media production. My track includes multiple web development courses focusing on Html, CSS, and JavaScript. Other classes include, Communications technology, classes on advanced editing software and Advanced Media production.

### MINOR, COMPUTER SCIENCE, SALISBURY UNIVERSITY

I have completed my minor in computer science at Salisbury university, I took classes on computer hardware and electronic circuits, Java, advanced C++ programming with Data structures and Algorithms and have completed two tech internships involving Python and MySQL scripting and IT support and Administration.
